

Tear It Up

Common Enemy

the damage in my brain, will make me go insane
I gotta find a way, to drain my minds decay
doctors say i'm crazy, nurses say it's youth
but when I get that feeling, my body needs to move
just have to
tear it up, f**k some shit up
tear it up, thrash that pit up
tear it up, f**k some shit up
we won't let you walk away until you tear it up
ten cc's of thrash, the doctor will prescribe
circle pit in pills, before you sleep at night
my fever has gone down, my headache is gone too
but when I hear that music, i'm coming after you
