

Wheelbite!

Common Enemy

Seems like it was over, right after it began,
I had it f**king figured out
And now I'm pounding sand
Wheelbite! It always never seems to fail
Wheelbite! Drag my feet thru the gravel
What happened? Another dead end?
Torn between my options and the Walls are closing in
Wheelbite! It always never seems to fail
Wheelbite! Drag my feet thru the gravel
I cant seem to get out of this, make me want to kill
Stuck here in this don't move my minds like a padded cell
Cant get ahead stuck here f**k this I'm running out of time
I cant seem to get out of this and this life is mine!
This life is mine!
If this is a test, and only a test,
I know the f**king answers but I cant
Fill out the rest, and maybe,
I complain a bit too much, but I'm not
Gonna waste my time and dig myself a rut
