

# Before You Go

## Common Kings

Want you to love me before you leave  
Let me hold you before you go  
Just remember the times we shared  
And remember you touched my soul  
We don't know where life will take us  
I hold my breath and be patient  
So, won't you love me before you leave

Every moment with you  
Pretty perfect for me  
Baby you're telling me that we can never be  
And I'm like

Cool it down, cool it down, take a minute  
You say you have to go  
But yesterday your heart was in it  
My love  
Oh woah, let me say what I need to say

Want you to love me before you leave  
Let me hold you before you go  
Just remember the times we shared  
And remember you touched my soul  
We don't know where life will take us  
I hold my breath and be patient  
So, won't you love me before you leave  
And let me hold you before you go oh woah oh woah  
Let me hold you before you go oh woah oh woah

Don't forget what we got  
No it can't be replaced  
One moment we're holding hands and you leave without a trace  
It's got me like

Cool it down, cool it down, take a minute  
You say you have to go  
But yesterday your heart was in it  
My love  
Oh woah, let me say what I need to say

Want you to love me before you leave  
Let me hold you before you go  
Just remember the times we shared  
And remember you touched my soul  
We don't know where life will take us  
I hold my breath and be patient  
So, won't you love me before you leave  
And let me hold you before you go oh woah oh woah  
Let me hold you before you go oh woah oh woah

You know that I love ya  
As hard as I try  
I'll never get over ya  
Baby blue eyes  
You know that I love ya  
As hard as I try  
I'll never get over ya

Baby blue eyes

Cool it down, cool it down, take a minute  
You say you have to go  
But yesterday your heart was in it  
My love  
Oh woah, let me say what I need to say

Want you to love me before you leave  
Let me hold you before you go  
Just remember the times we shared  
And remember you touched my soul  
We don't know where life will take us  
I hold my breath and be patient  
So, won't you love me before you leave  
And let me hold you before you go oh woah oh woah  
Let me hold you before you go oh woah oh woah

Let me hold ya before you go
