

Damn Good Time

Common Kings

Some days I don't wanna wake up
Maybe gods just testing what I'm made of
Pour one more drink cuz I'm in for a hell of a night
Wading in the water when the storm comes
And there's no hope left for me to hold on
Sometimes getting through the day's just staying alive

One two
Take a couple minutes then
Come through
Always down to kick it
There's a lot of bad days
And I never wanna spend one without you
We smoking that OG
Door stays open for the Homies
Only takes a little
There's a lot of bad days
And I never wanna spend one without you

Some days I just gotta fake it
No dollars and I'm sleeping on the pavement
Day ones see the pain hidden behind my smile
I'm so grateful for the placements
It's a long life, we just gotta make it
Puff puff pass it to the next now we sharing a vibe

One two
Take a couple minutes then
Come through
Always down to kick it
There's a lot of bad days
And I never wanna spend one without you
We smoking that OG
Door stays open for the
Homies
Only takes a little
There's a lot of bad days
And I never wanna spend one without you

Ohhhh it's a damn good time
Ohhhh it's a damn good time
Ohhhh it's a damn good time
Ohhh it's a damn good life...

One two
Take a couple minutes then
Come through
Always down to kick it
There's a lot of bad days
And I never wanna spend one without you
We smoking that OG
Door stays open for the
Homies
Only takes a little
There's a lot of bad days
And I never wanna spend one without you

Yeah I'm talking about
One two
Take a couple minutes then
Come through
Always down to kick it
There's a lot of bad days
And I never wanna spend one without you
We smoking that OG
Door stays open for the
Homies
Only takes a little
There's a lot of bad days
And I never wanna spend one without you

There's a lot of bad days
And I never wanna spend one without you

There's a lot of bad days
And I never wanna spend one without you
