

Fall In Love

Common Kings

Pull up to your house, pretty girl is all I see
Loosen the mood, Malibu the remedy
Vibe in the club, sexy thing I got to have it
No need to rush, gonna get it automatic

Have you ever been there?
Have you ever made it to the top?
Baby let me take you
Take you to my favorite spot
Let me know if I'm trying to push my luck
Tell me girl, are you down to fall...

In love, love, love, love, love..
Love, love, let's just fall in
Love, love, love, love, love..
Love, love, yeah yeah yeah...

Clothes hit the floor, let me see your naked truth
Feel it coming, show me that you're bulletproof
Got you coming, got me like an avalanche
Bodies burning, I will be your fireman

I need to warn you
Girl when I put it on you
Gonna make you say...
