

Fireman

Common Kings

I know you've been busy, drifting, sitting, waiting for the day when
Just waiting for the day when
Sleep won't be a remedy for going through the pain yeah, oh yeah
You're so lost and mad at that you're heart is here to save me, save
me
You're dodging all the signs and didn't notice that you gave in, gave
in
I saw your love go ablaze, went down in flames
Heard you caught the help I'm rushing to your emergency
You shouldn't play, with fire is dangerous
Just make sure that you don't burn again

Girl I'll be your fireman
I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
I'll call me your fireman, I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
Woah, fireman
Woah, fireman

Let me take you down I know the smoke is suffocating, smoke is suffoc
ating
If you need mouth to mouth don't worry I control your breathing, brea
thing
Girl if it's too much I'll be the one to come relieve ya, relieve ya
I know what you've been through, imma be your rescue
I saw your love go ablaze, went down in flames
Heard you caught the help I'm rushing to your emergency
You shouldn't play, with fire is dangerous
Just make sure that you don't burn again

Girl I'll be your fireman
I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
I'll call me your fireman, I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
Woah, fireman
Woah, fireman
Girl I'll be your fireman
I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
I'll call me your fireman, I'm your fireman
I've come to pick up your heart
I'm here to heal your scars
Woah, fireman
Woah, fireman
