

# Happy Pill

## Common Kings

Girl don't you worry  
The world is a dangerous place  
But I'm gonna keep you safe yeah  
Girl don't you worry  
If all of the doors should close  
You know I'mma pull you close yeah

And if you're losing your mind  
Imagine me by your side  
I'll be your happy pill tonight ooh  
And if you're losing your way  
And feel like you're 'bout to break  
I'll be the happy pill you take

There's trouble in paradise  
I seen it in your eyes  
Tell me what's goin' on yeah  
These are some fucked up times  
So let me pour you some red wine  
And put on everything's gonna be alright  
Cuz everything little thing's gonna be alright

Girl don't you worry

Girl don't you worry
