

Hideaway

Common Kings

She rock my night and day
All around the way
Yeah she so heavenly
Skin glow like fireflies
This girl so fine the perfect recipe
See you can do no wrong
You know where you belong
Come to my hideaway
The perfect place
Cause I got what you need

Mercy please I need a release
Now I need you ready girl to give it all to me
Mercy please ya got me on one knee
Now I need you ready girl to give ya love to me

Yeah girl cuz now I'm all up in it pull ya close
Hands down I know you'll be the one I want alone
I'm so impressed you got me under like a dose
I'm calling you my Queen Imma big you up the most

She rock my night and day
All around the way
Yeah she so heavenly
Skin glow like fireflies
This girl so fine the perfect recipe
See you can do no wrong
You know where you belong
Come to my hideaway
The perfect place
Cause I got what you need

Talk to me
Tell me just what you need
Nothing's out of reach
I got possibilities
Whether you like it fast or slow
I'll have you coming back for more

Yeah girl cuz now I'm all up in it pull ya close
Hands down I know you'll be the one I want alone
I'm so impressed you got me under like a dose
I'm calling you my Queen Imma big you up the most

She rock my night and day
All around the way
Yeah she so heavenly
Skin glow like fireflies
This girl so fine the perfect recipe
See you can do no wrong
You know where you belong
Come to my hideaway
The perfect place
Cause I got what you need
