

Slow Down

Common Kings

You're far from usual
Never seen no one like you before
More than beautiful
And I just had to let you know
I won't ask you to come tonight
Cause I ain't never been the forceful type
Baby just tell me I can waste your time
Tell me I can put your waist to mine

If you only you only knew
The way that I'm feeling for you
I need you right now
I need you right now right now
You know that you know that it's true
Cause you're throwing those vibes at me too
I need you right now
I need you right now right now

We don't have to slow down
Baby I am so down
Cause I don't see nothing wrong
Can we make it go all night long
Yeah yeah

We don't have to slow down
Baby I am so down
Cause I don't see nothing wrong
We can we can go all night long
Yeah yeah

We don't have to slow down na na
Slow down na na
We don't have to slow down na na
Slow down na na

Now we don't have to play pretend
Even though you know we're more than friends
Cause girl I hit you like adrenaline
Rush to me so we can go again

If you only you only knew
The way that I'm feeling for you
I need you right now
I need you right now right now
You know that you know that it's true
Cause you're throwing those vibes at me too
I need you right now
I need you right now right now

We don't have to slow down
Baby I am so down
Cause I don't see nothing wrong
Can we make it go all night long
Yeah yeah

We don't have to slow down
Baby I am so down

Cause I don't see nothing wrong
We can we can go all night long
Yeah yeah

We don't have to slow down na na
Slow down na na
We don't have to slow down na na
Slow down na na
We don't have to slow down na na
Slow down na na
We don't have to slow down na na
