

Stay With Me

Common Kings

I'll fly you out this weekend to Miami
Or we can drive down the coast up in Cali
It don't matter the distance
I'll show you something different
Pick any place you wanna
How 'bout Saturn
We can ride outer space name a planet
It's you and me rising yeah
Over the horizon

I think you should stay with me
Yeah stay with me
I just want you to stay with me
Yeah stay with me
I just think you should stay with me
Yeah stay with me
And girl I want you to stay with me
Yeah stay with me
Girl I want you to stay

I wanna get lost with you
Wanna change up the view
I hear Paris is warm in June
Taste of Diamonds out in Peru
Come with me let's fly to the moon
Tonight
We could take that flight
While we're sipping on red wine
I'll be by your side

Girl I think you should stay with me
Yeah stay with me
I just want you to stay with me
Stay with me

And I just think you should stay with me
Yeah stay with me
And girl I want you to stay with me
Yeah stay with me
Girl I want you to stay

Were sailing on the waters of Ibiza Costa Rica with my mamacita
It don't matter the distance
I'll show you something different
Pick any place you wanna
How 'bout Venus
Let's go somewhere where no one can see us
'Til we're back on the islands
Alone in silence

And I think you should stay with me
Yeah stay with me
I just want you to stay with me
Stay with me
And I just think you should stay with me
Yeah stay with me
And girl I want you to stay with me

Yeah stay with me
Girl I want you to stay
