Yo, just relax, take it easy slow down
I had this, I had this friend of mine
Who just, you know, he was movin too fast, yaknawimsayin?
I told him to slow down, he said the sun don't chill
I said, I said still, I said still, you gotta
Just appreciate life, sit back, don't let it fly right past you
No matter what go on I'm still gettin mine
No matter the year, no matter the place, no matter the time

Check it, it's like I'm fightin for freedom, writin for freedom
These record company niggas I don't like when I see em
My ancestors, when I'm writin I see em, and talk wit em
Hopin in the promise land I can walk wit em
Shitted on, so many rappers it's like I'm in the stall wit em
Molest concepts, start rhythm, paid dues, bought wisdom

Hold the mic like a memory
Niggas say I'm nice wit metaphors but these are similes
