

## 7 Deadly Sings

Common

Gluttony baby  
Is I needs what I see  
Gluttony baby  
Is us, aside to seat two

It's knocking  
Man, they gon, they gon, man they gon knock this one  
Ride out to this

It sit deep in my chest, so let me express  
Grew up on 868, oh y'all don't need the address  
It was 'round CVS, we were so devious  
The city never sleeps, it be needing some rest  
The streets was a mess, and they still are  
Feel our pain, the bigger picture, we was all framed  
But the game is the game, so let it begin  
In these streets, these are the seven deadly sins  
Now the first is pride, though some call it vanity  
A hustler's insanity can break up the family  
Pride can have a man stuck in his ways, not subject to change  
Knowing that I'll end up in a grave  
It's the arrogant [?] saying us Americans  
Messes up marriages, many sins, pride is parenting  
Like the second is something we all have  
Or felt, then cane or khan, it's called wrath  
I seen a boss take it out on his staff  
I seen a crip take it out on a blood, causing a bath  
Never seen a man making money while he mad  
So hustle plus wrath, y'all do the math  
Now the third, you probably heard from MOB  
They say use them rocks to make em envy  
Envy, the cousin of jealousy, on the streets it's a felony  
When niggas fucking hit you up [?] fidelity  
They hate it, to see you celebrated  
Counting my paper, nigga you could have made it  
Let me stay with that part, takes us to the fourth  
Where niggas is lazy, that's what we call sloth  
Want you to break em off, getting money it costs  
For you to be a boss, ain't no taking off  
Now the myth about the fifth, it only happens when we eat  
It's gluttony, this is how it happens on the street  
It's a dude that's getting paid in full, causing [?]  
Always played his four, but the way this nigga move  
He is never full and he gon want your food  
Don't overdo it, that's an underrated rule  
The sixth is a fix that's in all of us  
When I get drunk and want to bust, this is what we call lust  
When the drawers go down, the guards go down  
Cause a pussy is somebody getting robbed right now  
Okay the seventh is a seed that many believe  
Is the cause of em all, this is what we call greed  
Knew some cousins that was hustling, one of em ended up busting the other  
Greed is a mother, it's greedy motherfuckers like Madoff  
Cops getting paid off, greedy companies got my people getting laid off  
Before I sign off, in the sins we living  
The good thing is we can be forgiven  
The seven deadly sins
