Communic

It looks like every star  
Has a friend close by it's side  
But the reality distance between  
Is unimaginable far away...

Shining on our heaven bow  
Surrounded by friends  
Or maybe all alone  
Alone precise like me  
Precise like me, a fragile soul  
With the attraction to the moon  
Hanging high above  
Far out of reach

From birth of time  
Grand major design  
That no one can explain  
Nature's so devine  
I am the one  
My time has come

Moondance  
A ghostly rhyme playing my mind  
Moondance  
Hypnotised by it's beauty in light

It reflects on my broken dream  
Of being alongside with my star  
And I'll play the rhyme  
For all Earths folks to hear

Reach out hand out  
Imagine you could almost touch  
While our father the moon  
Is on his monthly voyage

On his return  
The heaven sparks dance  
While I... a tiny Earth soul  
Gaze at their dance...  
Casting their glance...  
Down on me

Escape into my private space  
Where I can sit and watch for days  
Imaginating, calculating, reality or dream  
It's unimaginable far away...

Shining on our heaven bow  
Surrounded by friends  
Or maybe all alone  
Alone precise like me  
Precise like me, waiting to see  
My lost star that once held in my hands  
Endless sleep  
Far out of reach

Never to return  
These memories burned  
A monument in time  
Deliverance of the mind  
Dissolve flesh, blood and bones  
You are all and the above

Moondance  
A ghostly rhyme playing my mind  
Moondance  
Hypnotised by it's beauty in light

It reflects on my broken dream  
Of being alongside with my star  
And I'll play the rhyme  
For all Earths folks to hear

Moondance  
A ghostly rhyme playing my mind  
Moondance  
Hypnotised by it's beauty in light
