

## Window

### Company Of Thieves

Like the night we met  
When you walked around my mind  
And you untied the strings  
I had knotted all my life  
Question all of the things I believed in  
Did I let you, or did I want you to  
Never mind the rhyme or reason  
Did I let you, or did I want you...

I want a window  
I want a window  
I want a window  
I want to see it all through

How can we forget  
All the words that got us here?  
And we both lost our heads  
In a battle of our fears  
Leaving trails of lies and secrets  
Did I let you, or did I want you to  
Never mind the rhyme or reason  
Did what I had to, I did what I had to

I want a window  
I want a window  
I want a window  
I want to see it all through

This is all you get  
When you risk your life  
And you work so hard  
And when you get back  
It's all been taken

Leaving trails of lies and secrets  
Did I let you, or did I want you to  
Never mind the rhyme or reason  
Did I let you, or did I want you...

I want a window  
I want a window  
I want a window  
I want to see it all through
