

Eye Of The Night

Conan Gray

'Cause you're here, you're watchin' me
I'm walkin' to your corner, I see you in the streets
You're here, you're haunting me
The eye of the night

I always feel like I am not alone
While I am walking down these empty roads
I always feel like I am not alone
I hear a voice that tells me where to go

'Cause you're here, you're watchin' me
I'm walkin' to your corner, I see you in the streets
You're here, you're haunting me
The eye of the night

I grab the keys, I scramble to the door
But then I, I hear your heartbeat bleedin' through the floor
The memories that I cannot ignore
Fight for my life inside a silent war

'Cause you're here, you're watchin' me
I'm walkin' to your corner, I see you in the streets
You're here, you're haunting me
The eye of the night

You're here, you're watchin' me
I'm walkin' to your corner, I see you in the streets
You're here, you're haunting me
The eye of the night
