

# Forever With Me

Conan Gray

Well, in this lifetime, we did it wrong  
But I guess that you could argue we survived  
And after all this time, I wonder why you're still with me  
Well, at least in all my memories

I ain't sorry  
I wouldn't change a thing  
But it'll take a lifetime to get better  
I ain't sorry  
Though I should probably be  
I think I'm gonna love you  
You're forever with me  
You're forever

You are the reason I learned to love  
Also the reason that I cry  
Still, I think of all the bloodshed, somehow bittersweet  
I'm even smilin' now as I sing

But I ain't sorry  
I wouldn't change a thing  
But it'll take a lifetime to get better  
I ain't sorry  
Though I should probably be  
I think I'm gonna love you  
You're forever with me

Lonely nights  
Anger does replace the pain  
But who am I to blame?  
I broke your heart the same

But I ain't sorry  
I wouldn't change a thing  
But it'll take a lifetime to get better  
I ain't sorry  
Though I should probably be  
I think I'm gonna love you  
You're forever with me  
You're forever with me
