

Found Heaven

Conan Gray

No God above us
Can we repent this sin?
No soul is innocent
Everybody wants to love

You walk alone into the darkest night
You'll never sleep until you're satisfied
You need love
You need one
You need him

You'll never get your mama's wedding ring
Father always said you ruined everything
But you prayed
Begged and prayed
Heart unchanged

Don't be scared, little child
You're no demon
You're no demon, don't be frightened now
There's a god in the sky
Don't believe him
Don't believe him, gods do love you now
Don't be scared, little child
Of that feeling
You're in love
You found heaven

Your heart is breaking as you leave that door
You never meant to start this holy war
But you're trapped
Pack your bags
Don't look back

Don't be scared, little child
You're no demon
You're no demon, don't be frightened now
There's a god in the sky
Don't believe him
Don't believe him, gods do love you now
Don't be scared, little child
Of that feeling
You're in love
You found heaven

You're no demon, don't be frightened now
