

# I Know A Place

Conan Gray

I know a place we could go  
I know a place where there aren't any roads  
Where the grass is always greener  
And doesn't scratch your fingers  
I know a place

So come with me dear  
The halogen hum hurts my ears  
Swim in the spring  
We could be free

Cause I know a place we could go  
No one has been there, and no one will know  
There it is quiet, forget the violence  
You've tried so hard to ignore

Oh, I know a place we could go  
Unpack our bags and we'll call it a home  
The sea will sing our minds to sleep  
I know a place we could go

And once we get there we could stay  
An old shaky house, our lives would be made  
And I don't know all the answers  
But you look like December  
There we could stay

I'm tired of fear  
Grasping for safe, familiar  
You are like me, oh, could we leave?

Cause I know a place we could go  
Far from the highways, far from that home  
Seep in the silence, safe in our minds that  
We try so hard to control

Oh, I know a place we could go  
No one will notice once we are gone  
Up in the trees, laugh on the beach  
I know a place we could go

Can we go home?  
Can we go home?  
Can we go home?  
Can we go home?

Cause I know a place we could go  
Deep in the forest, out of the storm  
Our souls could be freed of the disease  
That everyone tried to destroy

Oh, I know a place we could go  
No one has been there, no one will know  
The sea will sing our minds to sleep  
I know a place we could go
