

## This Song

Conan Gray

You know that I love you  
And I have a feeling that you love me back  
We're sat in my bedroom  
And I hear your heart like a train on the tracks  
Your eyes are like heaven, your voice is like rain  
Eleven-elevens, they all hear your name  
I'm too shy to tell you the words on my mind  
I hope you can see if you read through these lines

That I wrote this song about you  
Something I wish you knew  
Something I've tried to say  
But now I'll say it straight  
I wrote this song about you

We drive through the suburbs  
And you're playing all of your favorite songs  
You joke 'bout your mother  
She can't help but cry when she hears Elton John  
You're singing obnoxious, I'm laughing like spring  
Your brown racer jacket, my hands through the sleeves  
The smell of your perfume is all over me  
I can't wash it off, so it's easy to see

That I wrote this song about you  
Something I wish you knew  
Something I've tried to say  
But now I'll say it straight  
I wrote this song about you

You know that I love you  
Is it dumb believing you might love me too?  
Yeah

I wrote this song about you  
I wrote this song about you  
Now you know that I love you
