

# All That I Wanted

Conchita Wurst

Can't get it out  
Can't get out of my head  
I'm wondering why  
Still so many things unsaid  
Tried so many times  
Changing the vibe to get to you  
Get me out of the blue  
Why couldn't you just let me in?

It's all that I wanted  
It's all that I needed to, needed to  
Show me the real you  
It's all that I wanted  
It's all that I needed to, needed you  
Show me the real you  
It's all that I needed  
It's all that I wanted to, wanted to  
Show me the real you  
It's all that I needed  
It's all that I wanted to, wanted you  
Just want to know you

The cold you denied  
Kept me waiting in line  
We both know why  
All borders dissolved  
While problems evolved  
Did we really try?

It's all that I wanted  
It's all that I needed to, needed to  
Show me the real you  
It's all that I wanted  
It's all that I needed to, needed you  
Show me the real you  
It's all that I needed  
It's all that I wanted to, wanted to  
Show me the real you  
It's all that I needed  
It's all that I wanted to, wanted you  
Just want to know you

If it gets deep  
You risk to lose sight  
'Cause dark is the ocean  
Swallows your prides  
Stripped to the core  
Facing the reel  
Drowning devotion  
Surrender to thee

Nothing comes close  
Show me the real you  
Nothing comes close  
Show me the real you

It's all that I wanted

It's all that I needed to, needed to  
Show me the real you  
It's all that I wanted  
It's all that I needed to, needed you  
Just want to know you
