

Bodymorphia

Conchita Wurst

I drink a cup of purity to celebrate the times
Dream away reality no borders on my mind

Sickening beauty
Is all that you see
Glossy glow seductive
Drag the shine
Pull the train
Get dirt to flirt
Repulsive

Turn me off
Turn me on
Disgustingly delicious
Take me in
Like a sin
Apple fruit oh luscious

All the glory to whom is whorey
Let no one dimm your light boo
Pop the tongue
Show me hun
How bad you want me in you

Stretch your neck
Arch your back
Breathe in and kiss me tender
Down your leg
Up your ass
Show off beautiful creature

Won't give you time to approve all my needs
'Cause you don't know of the world in my dreams
And I'm ready ready ready to be seen again

Ain't not greater light than the one within me
You got it too, raise up, follow me
So we are ready ready ready to be seen again

Beauty is sick
Grace the filth
Grunt and pose
Seductive
Come on, ma'am
Work the glam
More dirt to flirt
Repulsive

Show your neck
Stretch your arms
The star of double feature
Down your leg
Up your ass
Show off
Beautiful creature

Won't give you time to approve all my needs

'Cause you don't know of the world in my dreams
And I'm ready ready ready to be seen again

Ain't not greater light than the one within me
You got it too, raise up, follow me
So we are ready ready ready to be seen again
(Ready to be seen again...)

Won't give you time to approve all my needs
'Cause you don't know of the world in my dreams
And I'm ready ready ready to be seen again

Ain't not greater light than the one within me
You got it too, raise up, follow me
So we are ready ready ready to be seen again
Ready to be seen again
