

Have I Ever Been in Love

Conchita Wurst

One more drink I fall deeper in love
You're so hard to give up
Just one more sip from the bottle
Last cigarette lifting me high
I can see in your eyes
That I'm playing with fuel near the fire

Tell me now have I ever been in love
Have I ever been in love
Is this just another game
Tell me now have I ever been in love
Is this just another game
I don't want to lose again
I don't want to lose again

Morning comes and I'm tasting regret
Left my tears on the bed
Try not to wake your attention
Clear as day and I'm hiding my face
Just another mistake
You're just a rock not a diamond

Tell me now have I ever been in love
Have I ever been in love
Is this just another game
Tell me now have I ever been in love
Is this just another game
I don't want to lose again
I don't want to lose again

I want, I will, I can, gonna be loved
Gonna be loved for who I am
I want, I will, I can, gonna be loved
Gonna be loved for who I am

Tell me now have I ever been in love
Have I ever been in love
Is this just another game

Tell me now have I ever been in love
Have I ever been in love
Is this just another game
Tell me now have I ever been in love
Is this just another game
I don't want to lose again
I don't want to lose again
I'm not gonna lose again
