Conchita Wurst

You and me we lay
Eyes on each other
And came to play
Wait I'm turning away
And not obey
Like you want me to
Want me to, okay?
See I see you sway
Like I want you to
And falling prey to my new rules
I let you dance to my tune
To my tune
And you don't really know about it

You and me dance the 1-2-3
In various speed
We go slow, we go fast, we praise
Love on ecstasy
If you think you can capture me
Just think again and perceive
Reality is that it's me that leads
And I just love to tease

I got you in the palm of my hand
I let you lead but I command

You and me we lay
Eyes on each other
And came to play
Wait I'm turning away
And not obey
Like you want me to
Want me to, okay?
See I see you sway
Like I want you to
And falling prey to my new rules
I let you dance to my tune
To my tune
And you don't really know about it

I don't like to wait
Just let me play play play
On you now, with you now
I am sure I'm here to conquer you somehow
I don't fear a lead
I'm really really drawn to your speed
It's the opposite that speaks to me
David and Goliath or you and me

You lead, I follow your speed
Show me, show me
Your needs, I then fulfill these
Assuredly

You and me we lay
Eyes on each other
And came to play

Wait I'm turning away
And not obey
Like you want me to
Want me to, okay?
See I see you sway
Like I want you to
And falling prey to my new rules
I let you dance to my tune
To my tune
And you don't really know about it
