

Waters Run Deep

Conchita Wurst

Tell me what would you uncover
If you knew what I know, lover
Let's play this game
And drink the champagne
Like it's supposed to be
Don't spare my soul
Cause I'll take it all
So I can feel something real

These waters run deep
Under the mountains
Uncover my streams
My secret garden
Cause I'm holding on for someone
Maybe I'm holding on for you
These waters run deep

Come nearer so that you see better
Cut me out of tide like leather
Untie these ropes
So they match to the smoke
So I can go up in flames
Come now and steal
What's left to reveal
And maybe I'll have no shame

But these waters run deep
Under the mountains
Uncover my streams
My secret garden
Cause I'm holding on for someone
Maybe I'm holding on for you
These waters run deep

These waters run deep
Under the mountains
Uncover my streams
These waters run deep
Under the mountains
Uncover my streams
These waters run deep
