

Oh hey my oh my  
Eyes are watching from the sky  
Who what where oh why  
I don't know you know  
But I don't thinki that i can go  
Where they take me I don't know  
They take me up  
Take me up  
Come on down and pick me up

I wonder if it's better  
If I can i'll send a letter  
I wonder why they come  
Who they are, where they're from  
And can't tell anybody  
Cause I know they'll think I'm crazy  
But a lot of pople think like me  
But don't know what it means

I'm closer all the time I am  
I know I will be fine  
I know I...

I'm closer all the time I am  
It's time we all got closer yeah...  
I know I...

Every day (?) rings like a telephone ringing  
Pick it up hang it up  
And it's driving me to drinking  
So you turn on your tv  
Misery stupidity  
I gotta go  
I gotta go  
What do i do about tomorrow

And then I think in on a minute  
This is life and you are in it  
Then I find if I try  
I can tap into the other side  
I listen to the music  
I feel it and I use it  
And I say  
I hear them say  
It can go the other way

What do you want with me? I mean, why me?  
And he looked at me with these big eyes and said  
You humans are not evolving at the rate you were expected to
