

# Make Your Art

## Conditions

[Verse 1]

Why did you

Why did you start playing in the first place?

Is it 'cause you swear that you're the change?

[Pre-Chorus]

I know it's inevitable to pretend that you're different

[Chorus]

Started out with the best intentions

Always striving for a little connection

No, eight years we tried

It's all, it's alright

Never cared if the chorus was missing

Never worried if the people would listen

No i swear it's fine

It's all, it's alright

[Verse 2]

How did you

How did all of you become this disgrace?

And I'm feeling responsible

[Pre-Chorus]

[Chorus]

[Bridge]

It's all, it's alright (whoa)

It's all, it's alright (whoa)

It's all, it's alright (whoa)

So why did you

Why did you start playing in the first place?

Is it 'cause you swear that you're the change?!
