

Goodbye Song

Confederate Railroad

I've never saw this coming

Couldn't me down
When I heard you say
We've grown apart
You had a change of heart
Didn't feel the same
It's like you pulled a trigger
On a photo You were whole life to my soul
And have a paint to end
You took your best shot
Now the limited man

You can take your feelings
Take your needs
Take it for someone errors
I don't really give a damn
To blame me
Give a pill
Take everything the flag we have
Stick it where the sun don't shine
One last thing before I move
(I move)
You will kiss my ass goodbye

What' done is done
We both agree
I will plan not to see the sun
That's only me

Forget my past when you too
When comes down I won't be around
When that's all you
(you)

You can take your feelings
Take your needs
Take it for someone errors
I don't really give a damn
To blame me
Give a pill
Take everything the flag we have
Stick it where the sun don't shine
One last thing before I move
(I move)
You will kiss my ass goodbye

Take your feelings
Take your needs
Take it for someone errors
I don't really give a damn
To blame me
Give a pill
Take everything the flag we have
Stick it where the sun don't shine
One last thing before I move
(I move)

Yeah One last thing before I move
You will kiss my ass goodbye
