

Alien

Confetti

Staring up into the sun
That's a fire looking loads of fun
I could marinade around the moon
Find another galaxy or two

Is this the planet where I find my love
Oh separated by the skies above
The stars cheer me like a stadium
I feel like I'm an alien

I open up the curtains
To find a bigger purpose
My home just makes me nervous
So I'm looking for my circus

A place where I don't have to hide
A place where I feel good enough to close my eyes
With people on my way, think I just need some space
Come on, hit my like a comet, taking off like super sonic, and I'm

Staring up into the sun
That's a fire looking loads of fun
I could marinade around the moon
Find another galaxy or two

Is this the planet where I find my love
Oh separated by the skies above
The stars cheer me like a stadium
I feel like I'm an alien

Oh oh oh
Oh oh oh
Oh oh oh
Oh oh oh

Flowers for the broken, powers for the chosen
I wish I could plead with the world for an omen
Losing all my hope and silence my emotions
What are we to hold when we're ready for explosion

So oh
I know
And so
I make a believer out of me
Oh oh oh

Is this the planet where I find my love
Oh separated by the skies above
The stars cheer me like a stadium
I feel like I'm an alien

I feel like I'm an alien
I feel like I'm an alien
I feel like I'm an alien
I feel like I'm an alien
