

Boring

Confetti

Boring
Everything about this is annoying
Every time it rains it's fucking pouring
Everything is fucking boring
Can I get an olé
Hard to get my ass up in the morning
I could use some weed and Cirque du Soleil
Everything is fucking boring, boring...

What? Got no fucks
One year running that I been cooped up
Now I'm in to anime, trying on things that I'd never be
And honestly I'm digging these pumps, yeah
I'm Banjo in ultimate smash
Got a kazoo me while I'm taking a bath
Feeling worldwide while I'm online, while I'm online all night...
I might never come back
Goodbye to the real world
I might see you next world
I'm stuck in the matrix of VR won't answer you calling
Unless you call when I'm hungry
Or in the mood for some broccoli
I'm probably going to take you up on that actually this shits...

Boring
Everything about this is annoying
Every time it rains it's fucking pouring
Everything is fucking boring
Can I get an olé
Hard to get my ass up in the morning
I could use some weed and Cirque du Soleil
Everything is fucking boring, boring...

All week in the same clothes
Cause there's no where to go
Unless we talking vaccines I'm gonna just post up and stay home
And lay low sinking deep in a dark hole
Search engine going like, yo...
Think this bitch is going psycho
Oooh oooh the government be tapping on my VPN
Oooh oooh now I'm just as good with my left hand
Ooh ooh, I recline and I
Oooh Ooh every single night
Ooooooh

Boring
Everything about this is annoying
Every time it rains it's fucking pouring
Everything is fucking boring
Can I get an olé
Hard to get my ass up in the morning
I could use some weed and Cirque du Soleil
Everything is fucking boring, boring...
