

Cry

Confetti

Sometimes I just wanna cry (cry)
Sometimes I just wanna cry (cry)

Crying out the womb
Crybaby coming through
Crazy what a smile looking back at you can do
Need a minute or a few
Audience clear the room
Got some tissues for the issues you can use

It's only human when you tap in that emotion
Whether you're mad, sad, feel bad
Best to clear your conscious
It's not on you to bottle up the world's problems
I know the best way to solve one

Sometimes I just wanna cry (cry)
And just be by myself
In a mood gotta give it time (cry)
Trust me to trust myself
Sometimes I just wanna cry
Cause words don't say it like all these tears
It's about to be a flood up in here

It's my party I can cry if I want to
Throw a surprise, flip the switch if I need to
If a dog's in a movie I can't watch the whole thing
Old couples dancing make it hard to look away

If I get the chance to live it
I'mma want the same thing
The look a couple get on their wedding day
'Till the day they grow apart
Damn shame things change
Except the ones you love
That 'gon see you to your grave

Sometimes I just wanna cry (cry)
And just be by myself
In a mood gotta give it time (cry)
Trust me to trust myself
Sometimes I just wanna cry
Cause words don't say it like all these tears
It's about to be a flood up in here

It's OK, it's OK
With me right now
Baby won't you cry, cry, cry
It's OK, it's OK
With me right now
Baby won't you cry, cry, cry

Sometimes I just wanna cry (cry)
And just be by myself
In a mood gotta give it time (cry)
Trust me to trust myself
Sometimes I just wanna cry

Cause words don't say it like all these tears
It's about to be a flood up in here

(Cry)
Sometimes I just wanna (cry)
