

Figure Me Out

Confetti

I think I'm in love with you
I want you to love me too
You may not like me now but
That's good for me and you
You're gonna like the things I do
I might be a little loud to make my presence known
And you can fight me back anytime you want
But just you
'Cause girl I like the way you do

And I'm sorry
It'll never be easy
It's gonna take you awhile
To figure me out but you'll figure me out
I know that one day
It'll be worth all the trouble
And you'll figure it out
When you figure me out

I'll build a paper plane to watch how it unfolds
And we'll fly above the Rockies just to crash into the snow
But with you, I don't mind the rocky road
We'll dance the night away until we close the bar
And then we'll fight about the future as if we even know
But I do, know that I'll be there with you

And I'm sorry
It'll never be easy
It's gonna take you awhile
To figure me out but you'll figure me out
I know that one day
It'll be worth all the trouble
And you'll figure it out
When you figure me out

Like a message in a bottle I could just wash away
But I'll ride this wave as long as it takes with you
Right beside you 'til I'm through
I said I'm sorry, sorry, sorry

I said I'm sorry
It'll never be easy
It's gonna take you awhile
To figure me out but you'll figure me out
I know that one day
It'll be worth all the trouble
And you'll figure it out
When you figure me out
Oh when you figure me out
