

## Right Now

Confetti

I got my headphones on today  
Now get your fake news outta my face  
Ain't got no bills I have to pay  
There could be a missile headed straight my way

Airbrush, airbrush, my life be like airbrush  
Even when the world is the worst  
Too much, too much, people complain too much  
Hate me but that's not my concern

I'm feeling so alive right now  
I feel like I could fly  
Like I could touch the sky right now  
I guess I got my head in the clouds  
(Wooo) Right now, right now  
(Wooo) Right now, right now  
I'm not phased by the things you gotta say  
I guess I got my head in the clouds

I'm a believer, this ain't no pill in a bottle  
I got a fever, that keep that heat on the throttle  
Got all the pretty women, I mean whatever you say  
I'm not a player, shhh, I run the play

We got em' moving from New York to L.A  
Got all the angels tell the devil he ain't welcome today  
I know you probably not a saint the way you whip at the waist  
You gotta know that this the time and the place

I'm feeling so alive right now  
I feel like I could fly  
Like I could touch the sky right now  
I guess I got my head in the clouds  
(Wooo) Right now, right now  
(Wooo) Right now, right now  
I'm not phased by the things you gotta say  
I guess I got my head in the clouds

(Wooo)  
(Wooo)  
(Wooo) Right now, right now  
(Wooo) Right now, right now  
I'm not phased by the things you gotta say  
I guess I got my head in the clouds  
(Wooo)
