Confetti

La La, La La, La-La-La  
La La, La La, La-La-La

You only call when you needing me  
Great way to kill your sympathy  
You've got everything, everything but empathy  
But somehow I'm a sucker w low self esteem

Damn boy what you thinking?  
Usually you're good with your intuition  
This genie in a bottle don't come with wishes  
Shit I only got the sink  
Without the kitchen

But couldn't it just be so nice  
If I could walk away tonight  
And finally get some peace of mind  
But damnit it's just so entertaining

You so rude  
No excuse  
So natural nobody wear it quite like you

Kinda cute  
No excuse  
Got me like Hamlet you play me like a flute

You so rude  
You so rude  
You so rude  
You so-rude

Why I gotta be so easy to fuck with  
Toying with my strings I must be a puppet  
You got me so dirty I can't help but love it  
Guess I'm still the same old sucka that I've always been

Whoa let go it's a party  
We ain't having fun if she ain't a little naughty  
She might lead me on even though she might not want me  
Guess I can kiss my pride goodbye until the morning

But couldn't it just be so nice  
If I could walk away tonight  
And finally get some peace of mind  
But damnit it's just so entertaining

You so rude  
No excuse  
So natural nobody wear it quite like you

Kinda cute  
No excuse  
Got me like Hamlet you play me like a flute

You so rude  
You so rude

You so rude  
You so-rude

(La La, La La, La-La-La)  
(La La, La La, La-La-La)  
(La La, La La, La-La-La)  
(Lalalalalalalalala)

What a waste  
(La La, La La, La-La-La)  
My mistake  
(La La, La La, La-La-La)

I had my chances  
(La La, La La, La-La-La)  
But now I think I might be here to stay  
(Lalalalalalalalala)  
Oh shit!

You so rude  
You so rude

(La La, La La, La-La-La)  
You so rude  
(Lalalalalalalalala)  
You so-rude
