

# Snow Day

Confetti

We been inside looking out  
Go to school and go to work  
And now it's here I wanna shout  
Another year around the globe that I've been missing  
All the snow that gets me out of this house  
So we can go and find a tree  
To decorate so we can shop  
To fill the space that's underneath

Ooh I'm wishing for a snow day  
Everybody come out to play now  
Go get your friends and family  
'Cause everybody needs a holiday  
I'm wishing for a snow day  
So we can finally catch a break now  
I can really feel the love today  
'Cause everybody needs a holiday

With all the places that I've been  
There's nothing special quite like this  
Just know your presents is a gift  
I'd like to wrap a bow around the walls and deck the halls out to the ring  
That's on my door  
With silver bells that ring in gold  
And we forget about the cold  
We shake a bottle this forever oh, and now we back together and it's got me  
like

Ooh I'm wishing for a snow day  
Everybody come out to play now  
Go get your friends and family  
'Cause everybody needs a holiday  
I'm wishing for a snow day  
So we can finally catch a break now  
I can really feel the love today  
'Cause everybody needs a holiday

Oh I'm hoping  
This moment stays frozen in time  
Arms open  
We're leaving nobody behind  
We got hills to  
Climb and then write down on radio flyers  
Then do it again  
Oh

Ooh I'm wishing for a snow day  
Everybody come out to play now  
Go get your friends and family  
'Cause everybody needs a holiday  
I'm wishing for a snow day  
So we can finally catch a break now  
I can really feel the love today  
'Cause everybody needs a holiday

Ooh  
Ooh I'm wishing for a snow day

I'm wishing for a snow day
