

## This Year

## Confetti

This year  
Raise up and toast to the ones right here  
Turn up the love in the atmosphere  
Pour out a shot for the ones that we lost  
Thanks for the love in our hearts  
This year  
I'll be the person I know I can be  
Make momma proud, now dad can see  
I made the most of my dreams  
This year

This year  
'Bout to be the best year ever  
Put it all together like angels in leather  
Keep it contrast oh so sweet  
Got diamonds in the sky falling, plow them streets  
Round the globe all year gonna bump this  
Keep it steady, give it gas with the trumpets  
Fast forward, November  
Cause this the December  
The people will always remember

This year  
This year gonna be the best year ever  
I mean forever

This year  
Raise up and toast to the ones right here  
Turn up the love in the atmosphere  
Pour out a shot for the ones that we lost  
Thanks for the love in our hearts  
This year  
I'll be the person I know I can be  
Make momma proud, now dad can see  
I made the most of my dreams  
This year

This year  
I'm fogging windows up just to make things clear  
Resolution number one, no more fear  
Let's live it up tonight before we disappear  
And let's cheers  
It's never too late to have a better day  
Lemons into lemonade, even if it's Minute Maid  
Whether it's your birthday  
Or a Wednesday afternoon in May  
This is all I'm gonna say

This year  
Raise up and toast to the ones right here  
Turn up the love in the atmosphere  
Pour out a shot for the ones that we lost  
Thanks for the love in our hearts  
This year  
I'll be the person I know I can be  
Make momma proud, now dad can see  
I made the most of my dreams

This year

This year

This year 'gon be the best year ever
