

# Luvin U Is Easy

Confidence Man

Luvin u is easy  
There's nothing wrong with that  
Even if you leave me  
I can get you back

It's such a pleasure when you're living here  
I can stay at home  
It's such a pain when you disappear  
I'll be all alone

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

Don't wait for me in heaven  
Too beautiful for that  
If you do right by me  
I'll do you right back

It's such a mystery the way you move  
Your body never lies  
Now when you're kissing me there's less to lose  
And maybe that's alright

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

Every day it feels so, feels so, feels so real  
Every day it feels so, feels so, feels so real

I can always hear your heart beating  
Every day it beats a little louder  
I can always hear your heart beating  
Hear your heartbeat when it's close to mine

Every day it beats a little louder

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

I can always hear your heart beating  
Hear your heartbeat when it's close to mine  
Every day it beats a little louder  
Beats a little louder when you hold me tight

Every day it feels so, feels so, feels so real  
Every day it feels so, feels so, feels so real

Feels  
Feels so real, so real  
Feels  
Feels so real, so real
