

Push It Up

Confidence Man

Oh, push it up
I'm starting to believe it, baby
Oh, push it up
Makin' it look easy
I'm gonna take my time
I'm gonna do it right
Oh, push it up

Somebody told me that there's nowhere left to go
I've been around the world and, baby, you should know
If you need something
To lift you up
Just touch your toes and bend your knees and push it up

Oh, push it up
I'm starting to believe it, baby
Oh, push it up
Makin' it look easy
I'm gonna take my time
I'm gonna do it right
Oh, push it up

(I'm gonna do it right)

I do the same thing every day around the world
I do it everywhere 'cause I'm that kind of girl
Once I get started
I never stop
Takes two to tango, but just one to push it up

Oh, push it up
I'm starting to believe it, baby
Oh, push it up
Makin' it look easy
I'm gonna take my time
I'm gonna do it right
Oh, push it up

P to the U S to the H I T
P to the U S to the H I T

I love to push it up
I find it exhilarating
Euphoric in my body
Uh and it feels so nice

Oh, push it up
I'm starting to believe it baby
Oh, push it up
Makin' it look easy
I'm gonna take my time
I'm gonna do it right
Oh, push it up
