

Toy Boy

Confidence Man

(Big up on this)

I'm having fun when I'm messing with my toy boy
Love is a game and you know I can play, boy
Rub you down in butter and I serve you on a plate
They say there's 7 wonders but my toy boy makes it 8
With a face like that, there's no conversation
With an ass like that, there's no hesitation

With a face like that, you don't need to work hard
With an ass like that, you don't need to work

All my people, all my people
All my people, where you at?
All my people, all my people
All my people, where you at?

Doing this, doing that
With my toy boy in the back

All my people, all my people
All my people, where you at?

Hot, sexy, beautiful
You're nothing but a toy boy
Crazy, sexy, cool
This bitch has got a chew toy

You know how to (Uh)
You know how to move your body
Shake, shake, shake
Shake it for my money

With a face like that, there's no conversation
With an ass like that, there's no hesitation
With a face like that, you don't need to work hard
With an ass like that, you don't need to work

All my people, all my people
All my people, where you at?
All my people, all my people
All my people, where you at?

Doing this, doing that
With my toy boy in the back

All my people, all my people
All my people, where you at?

(Big up on this)

Hot, sexy, beautiful
Crazy, sexy, cool, boy
I love that you're so innocent
Innocent and pure boy

You know how to (Uh)

You know how to move your body
Shake, shake, shake
Shake it for my money

All my people, all my people
All my people, where you at?
All my people, all my people
All my people, where you at?

Doing this, doing that
With my toy boy in the back

All my people, all my people
All my people, where you at?
