

## Do You Get The Picture

### Conflict

Nothing to say? Then shut your face  
Do you get the picture? Don't like what you see?  
Look the other way, do you get the picture?  
I'm sick of hearing complaining when nobody's creating  
You want something better? Then you've got to make an effort, because nobody else cares less  
Want some respect? Look to yourself  
Do you get the picture? Don't like who you are? Then change  
I'm tired of hearing escapism excuses, try putting yourself to better usage  
You've got to be top class, dignified. Got to stay sharp, in touch, motivated  
Feeling yourself starting to stagnate? Better get up off your knees before it's too late  
Get back on top, fulfil your life, not enough to simply stay alive  
If you've got an idea put it forward, don't keep it in the back of your mind  
Don't fret yourself about criticism, sometimes you have got to be cruel to be kind  
Go on, make it, look in the mirror, do you see a person that's framed  
(Trapped)  
It's up to you and only you, get the picture? You're the only person to blame

Don't get indignant with me boy, I'll give you something to cry for  
You see these hands; they look so soft they are ready and willing when it all goes off  
No, don't get indulgent with me boy, knock self-importance on the head  
Don't sit there moaning, there's nothing I can do, just start thinking instead  
It's simple, when it rains we get wet, when it's sunny we get hot,  
sometimes I wonder if that's all we've got

Don't get depressed, never give in; even when down, remember we can win  
You know, he knows, she knows, I know, they know, we all know, fucks knows... and so

Don't get cynical with me girl, I'll give you something to cry for  
You see these hands, they're so soft, they find the target when the lights go off  
You don't get cynical with me boy, don't tell me life can be ba

d

I don't need that shit shoved in my face; I like to believe we  
can make a stand

But we are so small and it's so big

It tells us what to do, tells us what to think

If we don't stand a chance may as well be dead

Forward our intentions, re-create instead. Come on! Come on!
