

Law & Order

Conflict

No more law & order, that word says it all. It's Just one human
being
Denying another of self rule. The police ain't authority for al
l they do Is
Serve the state, they do their dirty work to make the people le
arn, they
Interrigate, discriminate, smash demos and assault, they sort o
ut all queers
And keep the wogs locked ina vault and they're here for protect
ion but
Protection for who? They all wear that same badge that says FUC
K YOU ALL
Oh yeah, they're here to maintain rights, they're here to keep
the peace.
They've also got a right to lock up and not release any form of
rebel.They'll
Even work against their own, because they bribe them very well
and they may
Also get a home. Protect their privelage no matter what the cos
t, now you're
Piggy in the middle and they couldn't give a toss. They shit ba
ck and laugh
Yes they laugh at you too, because they also wear a badge that
says we use
You!, It's Just the same old story of a state gone wrong, where
possessions
Matter and people don't be surprised that we've turned against
you because if
You take their side, it's FUCK YOU TOO!
