

## Rot

Conjurer

No matter where you are I'm there  
Stifling each waking breath  
Every step, within my shadow  
A servility unwavering

Fear, dread, all I've wrought  
Carved out of your every thought  
Oppress, shame, submission sustains  
We will rot  
Fear. Guilt. Shame. Always  
Fear. Guilt. Shame. Always

I will consume you  
I will become you  
We will regress  
We are regret

"Second after punishing second  
Your disdain lingers  
I would break myself to be rid of you  
For a glimpse of reprieve  
Everything that you are is me  
You aren't to blame  
No one is at fault  
This is me"

Plead. Beg. Ache  
We are as one in torment  
Plead. Beg. Ache  
A wound that weeps eternal

I'll push deep the splinters of ego  
Draw a well to drown in our shame  
Fear as our blade, guilt as the 'stone  
A wound that weeps eternal

I have consumed you  
I have become you  
We have regressed  
Live in regret, Perish  
Fear. Guilt. Shame. Always
