

Steal My Thunder

Conner Smith

I heard sirens first time I saw you smile
Your mama couldn't tame a little wild child
Grew up riding that county line that you weren't afraid to cross
You're the kinda girl that could tear up a town
Hell up on a heart put your head in the clouds
Set the radio onto rodeo and baby let's get lost
It's too late now to stop

Like lightning on my lips every time you kiss me
2 seconds flat heart's 0-60
Carry me away like the Mississippi rolls
Gold sunset is my silver lining
Bouncing off your eyes like a couple diamonds
Levi jeans on the bench seat sliding close
Hotter than a no A/C all summer
Girl you stole my heart
So steal my thunder

Rolling 21 with an ace and a queen
35's hitting full head of steam
Shotgun rider with her hair in the breeze
Lord knows nobody's looking at me
(Yea you know what I mean)

Like lightning on my lips every time you kiss me
2 seconds flat heart's 0-60
Carry me away like the Mississippi rolls
Gold sunset is my silver lining
Bouncing off your eyes like a couple diamonds
Levi jeans on the bench seat sliding close
Hotter than a no A/C all summer
Girl you stole my heart
So steal my thunder
Steal my thunder

Rain rain come today
Tell the sunshine to take a break
Gray sky's blowing in from the north
Whatcha say we go ahead and lock the doors
Rain rain come today
Tell the sunshine to take a break
You and me together is a perfect storm
So baby let it pour

Cause it's like lightning on my lips every time you kiss me
2 seconds flat heart's 0-60
Carry me away like the Mississippi rolls
Gold sunset is my silver lining
Bouncing off your eyes like a couple diamonds
Levi jeans on the bench seat sliding close
Hotter than a no A/C all summer
Girl you stole my heart
So steal my thunder
Steal my thunder
