

Tennessee

Conner Smith

Baby I know you got that city girl in ya'
You love your hair done up for a downtown night
Get 'em high heels on turn heads anywhere that you walk in
You know how to run a college town
Yeah that's right
But I hear it when you're mad
When you're talking a little too fast
You sound just like your momma on the phone
So baby lemme take you back
Somethin' that'll take you back
To the Smoky Mountain town you call home

I just wanna get ya'
Sittin' by the river
Sippin' on some strawberry shine
And I just wanna know ya' like your hometown knows ya'
Who you were before you were mine
You ain't gotta hide that girl from the east side yeah
Let your Tennessee come out

Tell me all about the way you were raised up
That crazy country family you laugh about
Did your old man chew that red man
Grandma's house smell a little like cigarettes and cornbread
I wanna know it all

I just wanna get ya'
Sittin' by the river
Sippin' on some strawberry shine
And I just wanna know ya' like your hometown knows ya'
Who you were before you were mine
You ain't gotta hide that girl from the east side yeah
Let your Tennessee come out
Come on girl

Like a Saturday cheerin' on the Vols
Singing along to a Dolly song
You got it, I know it
So baby show it

'Cause I just wanna get ya'
Sittin' by the river
Sippin' on some strawberry shine
And I just wanna know ya' like your hometown knows ya'
Who you were before you were mine
You ain't gotta hide that girl from the east side yeah
Let your Tennessee come out
Oh let your Tennessee come out
Yeah
Let it come out

Yeah Rocky Top you'll always be
Home sweet home to me
So let your Tennessee come out
