

## How Did He Look?

Connie Francis

How did he look? Did he look happy?  
While they were dancing did he whisper things in her ear?  
And did he light her cigarette, was he attentive?  
The way he used to be with me.

What was she like? Was she attractive?  
Was there a smile upon his face or did he seem bored?  
Not that I really care, I know that our love affair can never be  
But how did he look, and did he ask about me?
