

My Thanks To You

Connie Francis

Words have such wonderful meaning
When they're sincere and they're true
Mine surely are too humble by far
But these words are just for you

Why all you mean to me my thanks to you
Why every memory my thanks to you
My thanks for everything we loved to share
For all the love you bring when you are there

These foolish words of mine could never say
How slow the hands of time when I'm away
As years go rolling by my whole life through
I'll give my love and all my thanks to you

As years go rolling by my whole life through
I'll give my love and all my thanks to you...
