

You and Your Sweet Love

Connie Smith

I wish you only knew
All the days I've made it through
Because of you and your sweet love

I wish that I could count the times
Peace and comfort filled my mind
Because of you and your sweet love

You're what keeps me going
The sun that lights my sky
The rose that blooms in winter
The rain that cools july

Never try to tell me
It wasn't God above
That sent me you
And your sweet love

Almost every night it seems
You come walking through my dreams
Precious you and your sweet love

And tonight though we're apart
There's a fullness in my heart
Thanks to you and your sweet love

You're the rock I cling to
The star I wish upon
The water in my desert
The anchor in my storm

Oh, never try to tell me
That it wasn't God above
That sent me you
And your sweet love

He sent me you
And your sweet love
