

## Sail Away

Connie Talbot

When the world wanna drive you crazy  
Caught up in the day to day and  
The walls are closing in on you  
When it feels like too much pressure  
I can think of something better  
Right now do what you want to do

Imagine yourself to be somewhere else  
You might as well  
Oh yeah (yeah)  
Break out, break free to where you wanna be  
Find out how it feels tonight

Sail away  
Let the music take you anyplace  
That you want  
Sail away (sail away)  
Disappear and let the music play  
Til it never stops (yeah)

When you're down and you're feeling lonely  
Feelin bad or sad is what you don't need  
A change of scenery would do just right  
When you wanna write a different life story  
Everyday the same, gets a little boring  
Why not change it to what you like?

Imagine yourself to be somewhere else  
You might as well  
Oh yeah (yeah)  
Break out, break free to where you wanna be  
Find out how it feels tonight

Sail away  
Let the music take you anyplace  
That you want  
Sail away  
Disappear and let the music play  
Til it never stops (never stops, yeah)

Imagine escaping to wide open spaces  
As far as the eye can see  
Imagine tonight, picture anywhere you like  
If that's where you wanna be  
Sail away!

Sail away  
Let the music take you anyplace  
That you want  
Sail away  
Disappear and let the music play  
Til it never stops (til it...)

Sail away  
Let the music take you anyplace  
That you want  
Sail away

Disappear and let the music play  
Til it never stops

Sail away  
Sail away  
Sail away
