

Can't Give Up

Connor Price

I can't give up now
I've been chasing this my whole life (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight
I can't give up now
I got people that need me to provide (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight

Yeah, look
They just wanna keep you down (Down)
They don't want to see you crowned (Crowned)
Keep winning, never see you frown
Yeah, keep swimming, never see you drown
Be loud, be proud
Family, gotta keep them round
Don't go down easy when they beat you down
Better keep your ground, yeah
Roll with the punches (Oh)
Keep moving, no interruptions (Nah)
Keep going 'til the day that I make my name so great, need no introduction
Even if they go low, then I'm going above 'em
If I can't walk, then I'm going on crutches
And if they hate what I make, and they spit in my face
Okay then I'll show 'em what tough is
I'm not perfect, perfect
And that's why every day I'm learning (Yeah), learning
Gotta try and find my purpose, purpose
'Cause I know that I am worth it (Right), worth it
Got me singing like

I can't give up now
I've been chasing this my whole life (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight
I can't give up now
I got people that need me to provide (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight

Aye, Prinz
Have you ever been hurt so much in your life?
That you don't even feel like you no more, it's a battle to stay alive
My mum telling me it's alright
She told me, "Son, your future's bright"
Everyone told me I'm a failure, but I knew I'd put up a fight
Look at me now, I'm making moves
Wait, I need a bottle of water, quick, before I step in the room
I don't even have no time for games, all of the labels call my zoom
All of the Mandem know it's true
I used to live in the council flats, I wanted to make it out of the hood
So I chased my dreams and I made it back
They used to hate on my ting, look at me now, they see I'm shining
I used to pray for days like these, I'm thankful it came at a prefect timing
Too many times I wanted to quit, but I got back up and I kept on grinding
If I'm the best version of myself, I know nothing's gonna stop me flying

I can't give up now
I've been chasing this my whole life (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight
I can't give up now
I got people that need me to provide (Yeah)
And if the world's gonna bring me down
Then I'ma get back up and fight
