

Miss You (When You're Gone)

Connor Price

I'm going mad, sometimes I hate you
When I'm around you
But I miss you when you're gone
There's only pain, where's the desire
When we're together?
But I miss you when you're gone
Yeah, want this to end, I'm gettin' tired
Just need a break
But I miss you when you're gone
See, that's the thing, I think I love you
Don't wanna lose you
'Cause I miss you when you're gone

Yeah, miss you when you not here
Argue when you are here
About how you ain't always here
Not fair that I'm not there to console you
When you so sad and you got scared when you thought there
Was a small chance that you'd come back and I'm not there
Nope, that ain't gonna happen
Never gonna move on, never gonna leave you
We too good together, I need to treat you
Good, 'cause baby I need you
Yeah, why do we fight and we fuss, cry and we cuss?
Drivin' me nuts
But every time, why do I love it?
Can't picture anyone else but us

I'm going mad, sometimes I hate you
When I'm around you
But I miss you when you're gone
There's only pain, where's the desire
When we're together?
But I miss you when you're gone
Yeah, want this to end, I'm gettin' tired
Just need a break
But I miss you when you're gone
See, that's the thing, I think I love you
Don't wanna lose you
'Cause I miss you when you're gone

Yeah, haven't seen you in a couple days
Feelin' like a couple hundred days
Missin' you, well, that's an understatement
Thinkin' that you gotta come and stay with me
Or maybe we can run away, 'cause
This ain't ever gonna work knowin' you on earth
And you not the one I lay with
Why do you push me away, next thing you tell me to stay?
Why do you leave, but tell me that me bein' with me
Is everything you'll ever need?
Make up your mind, I don't understand
Are you all mine? 'Cause I've been all in
I played the cards I was dealt from the start
'Cause I knew in my heart that this wasn't gon' end, yeah

I'm going mad (I can't stand)

Sometimes I hate you (How I feel now)
When I'm around you (So I walk out)
But I miss you when you're gone (But I miss you when you're gone)
There's only pain (It's not fair)
Where's the desire (What I feel here)
When we're together? (So I can't stay)
But I miss you when you're gone (But I miss you when you're gone)
Want this to end (I'm all done)
I'm gettin' tired (I don't need this)
I need a break (I can't be this)
But I miss you when you're gone (But I miss you when you're gone)
See, that's the thing (And I can't stop)
I think I love you ('Cause I love you)
Don't wanna lose you (I can't lose you)
'Cause I miss you when you're gone ('Cause I miss you when you're gone)

When you're gone
'Cause I miss you when you're gone
When you're gone
'Cause I miss you when you're—
