

# Smoke

Connor Price

I want all that smoke, turn me into ashes  
Want you on my skin, nicotine patches  
I just wanna take you like a deep breath  
Ain't gon' have one single cigar-regret  
So give me that smoke, all them flames  
All that heat, keep it comin'  
911, my emergency is my woman  
But just let me burn, I should've learned but no, no, no  
I want all that smoke

Gimme the smoke, gimme the heat, you my wildfire (Fire)  
Gimme a toke, breathe in deep, you what I desire ('sire)  
Get too close to you, I might get burned  
Well, that's okay 'cause I like how it hurts, so  
I want all that smoke  
Puttin' my heart in this, set ablaze my arsonist  
Cupid got two hits, guess you and me got targeted  
I got the hardest hit, straight down on my cartilage  
Can't think about life and you ain't part of it

I don't need no lighter, baby 'cause you fire  
Check me into rehab, I know you gon be bad for me like my favorite  
Habits keepin' me high  
Need a surgeon general warning on them Levi's

I want all that smoke, turn me into ashes  
Want you on my skin, nicotine patches  
I just wanna take you like a deep breath  
Ain't gon' have one single cigar-regret  
So give me that smoke, all them flames  
All that heat, keep it comin'  
911, my emergency is my woman  
But just let me burn, I should've learned but no, no, no  
I want all that smoke

Feeling impatient, got me sweatin', you hotter than Vegas  
Breathin' heavy, my heart has been racin'  
Need a second, I gotta embrace it  
Okay, 'cause you don't know what you do, my love  
I still walk through flames for you just because  
I want all that smoke  
Little bit of heat never hurt no one  
Takin' all the shine like there were no sun  
Heatin' up quick like a fur coat does  
Try to inhale this and inferno comes, (inhale, exhale)  
Burn those lungs  
Keep going, I'ma turn those up  
All night long 'til the sun rises and the birds show up, let's go

I want all that (Ooh)  
I'ma love you like I just got of jail (I want all that, ooh)  
Let my hands read that body like braille (I want all that, ooh)  
Look at you blush, ain't gon beat around that George W Bush like I didn't in  
hale

I want all that smoke, turn me into ashes  
Want you on my skin, nicotine patches

I just wanna take you like a deep breath  
Ain't gon' have one single cigar-regret  
So give me that smoke, all them flames  
All that heat, keep it comin'  
911, my emergency is my woman  
But just let me burn, I should've learned but no, no, no  
I want all that smoke
